Conflict of Interest Policy

The Company provides the Client this Conflict of Interest Policy under the provisions of the Company regulations and policies, which may be changed or amended from time to time without notice. The Company takes reasonable steps in preventing and detecting any conflict of interest.

Scope

This Conflict of Interest Policy applies to the Company and its authorized representatives, the Client, and third parties involved in some transactions and interactions between the Client and the Company.

Conflict of Interest Management

During the occurrences of conflicts, the Company will collect information about the conflict as an initial procedure to prevent or control the possible exchange of information from the preceding exchange between the involved parties. The Company will then take necessary procedures or measures it deems fit to prevent the conflict resulting in inappropriate exchanges or actions.

Consent to Conflict Policy

The Client agrees to consent to the Terms of the Conflict Policy. The Client agrees and authorizes the Company to deal with the Client's transactions that the Company believes to be for the best interest of both parties, notwithstanding any conflict that may arise between the Client and the Company or any third-party involved. In cases of disputes that the Company may not be able to address, a consultation with the Client will be conducted.

Throughout the relationship between the parties, the Company may disclose the conflict of interest policy should an issue arise prior to the undertaking of any business or transaction with the Client.
